## CD/DVD Sleeve Accumulator

The Bronway SA-250 CD/DVD Sleeve Accumulator is a versatile unit that performs the dual function of **COUNTING** and **BUNDLING** of sleeved discs into discrete groups of a chosen size for simple finishing. The SA-250 automatically counts out pre-set quantities of sleeves (1-25) into separate slots on an accumulating output conveyor and these groups are then positioned vertically for easy removal prior to packing or other finishing.

A fully height adjustable stand-alone unit, the SA-250 is designed for use at the end of automatic sleeves, shrink tunnels, label applicators etc. as well as having a definite application in the streamlining of an all-manual process.

### FEATURES

- Fixed speed input conveyor (600mm long).
- Vertically segmented output conveyor with 17 separate slots.
- Programmable LCD clear text control unit.
- Processes groups of between 1 and 25 sleeves.
- Designed to interface with upstream machinery.
- Height adjustable (700-1100mm).
- Single rigid unit construction.
- 100 plus sleeves per minute.

**SPECIFICATIONS**

- **Weight**  
Approx. 80Kg.
- **Dimensions**  
Approx. 2300mm long x 550mm wide (max.)  
x 700-1100mm high (adjustable)
- **Energy Requirements**  
220/110 VAC 50/60Hz.  
Single phase 16A
