CD/DVD Spindle Counter

Accurate counts of CD/DVDs in CD/DVD Manufacturing and Software Fulfilment Plants have become more critical than ever. Publishers now demand accountability for CD/DVDs manufactured and shipped on their behalf.

To address this need Bronway has introduced the **NEW CD-50 Spindle Counter** as an entry priced option to the world recognised No. 1 CD counter, the Bronway CD-200 and its mid-range offering, the CD-100.

It addresses a broad market requirement for high accuracy and very low cost CD counting. Using similar well-proven technology as used in the CD-200 & CD-100 the CD-50 offers a significant price performance for a broad base of cost critical CD count applications.

The CD-50 is ideally suited for installation on each CD manufacturing line or for simple and straightforward low-cost counting applications.

The CD-50 Spindle Counter, designed for ease of use, offers significant advantages over existing entry level counters on the market.

FEATURES

- Accurate CD/DVD spindle counts.
99.99% count accuracy. 100% repeatable.
Automatic count verification.
- Through-scan laser operation with powerful SCANRITE maths algorithm.
- Up to 200 disc-count capability.
- Max. 5-second cycle time.
- Programmable to handle a variety of spindle spacers.
- Automatic self-test power-up.
- Automatic laser-off after 5 minutes.
- Solid-state laser.
- Clear 7 segment displays.
- 1 button keypad operation.

BENEFITS

- Determine production yields at each process stage. Pinpoint areas of CD/DVD loss 'in-process' – full CD/DVD tracability.
- Simple operation by non-technical personnel via
The keypad and display on the front panel.

SPECIFICATIONS

- **Weight**
11Kg.
- **Dimensions**
240mm X 310mm X 500mm.
- **Energy Requirements**
220/110 VAC 50/60Hz.
